the has just returned from the seat of the war between Russia and Japan where he represented his government in observing the war manoeuvres.

When the war began between the two countries Lieut. McCully was chosen by the department at Washington to go on a special embassy to the East. He remained with the Russian army throughout the struggle and began his homeward journey when hostilities ceased during the peace conference at Portsmouth. He was at Port Arthur during the famous siege of that stronghold and on more than one occasion was in dangerous situations. He was also with the army during the great battle of Mukden and subsequently went to Vladivostok about the time of Togo's great naval victory in the Sea of Japan.

Lieut. McCully will remain in the city until Sunday when he will return to Washington to make a report of his observations in the East. His record has been a fine one, and the people of his netive city are proud of him.

A slight change in the direction of the bullet might have caused instant death.

The Court of Common Pleas.

The fall term of the Court of Common Pleas convened Monday morning at 10 o'clock with Judge Chas. G. Dantzler presiding. The civil calendar contains a long list of cases and it will require all of the three weeks of court to dispose of the cases awaiting trial. The act of the Legislature creating two additional circuits gives needed relief to the congested business of the civil court. Each term herefore has been limited to one week.

The case of J. W. Welborn vs. J. W. Dixon was taken up Monday morning. This is an action for damages in the sum of \$2,000 for failure to reconvey a tract of land under an alleged agreement between plaintiff and defendant. The jury gave the plaintiff damages in the sum of \$216.

The court is engaged this morning in the case of Cole vs. the Blue Ridge railroad, an action for damages. The case will go to the jury during the day.

day.

The present jury will serve only one week, giving way to the jurors already drawn to serve the second week. There are several important cases for trial at this term, among them being the case of Tenney against the Anderson Water, Light and Power company, which grew out of the breaking of the big Portman dam a few years ago.

Those of our Denverites who attended the Anderson County Fair pronounce it a decided success. They were pleased to see so many fine exhibits in every department. But there would have been many more articles on exhibition if the managers of the fair had distributed more freely the premium lists. A lot of people never saw one at all, and several said they did not see them in time or would have put something on exhibition. Two of our ladies took the blue ribbon on fancy work, Miss Mary McWhorter on a lovely piece of drawn work, a handkerchief, and Miss Irene Milam on a beautiful embroidered centerpiece.

The crop is fine, much to the delight of poor folks and darkies. The old saying holds true, that "potatoes are equal to bread and meat and some clothes," for the children will need less clothes, as they hover over the lire roasting them. Housekeepers are pleased, too, for the many dainty dishes that can be made from sweet potatoes add much to the bill of fare.
